

# How to print from your PC

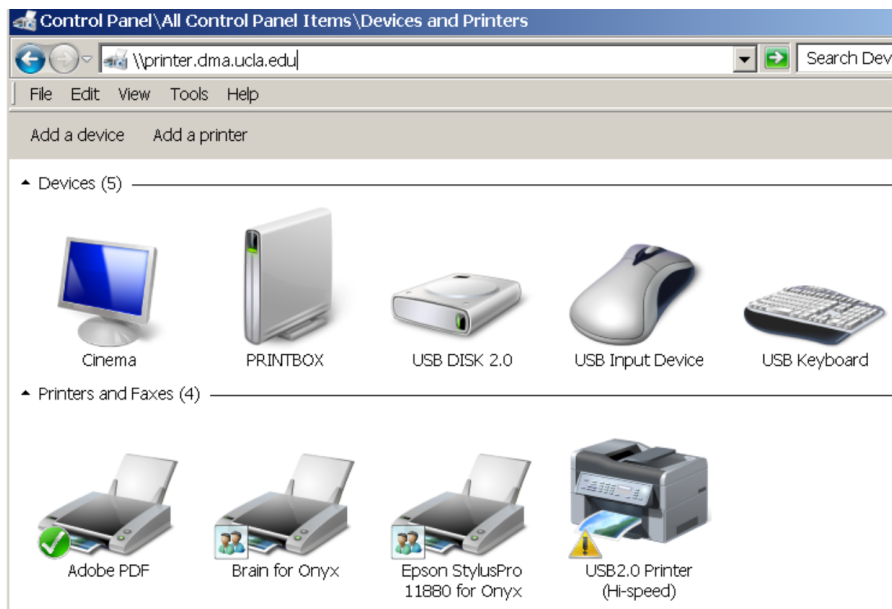

Before starting, make sure you are on the EDUROAM network.  
Go to Control Panel and select **Devices and Printers**.

 Desktop Gadgets

 Devices and Printers

 Ease of Access Center

Type in `\\printer.dma.ucla.edu` in the top search bar.

A window will pop up asking for login credentials. Type in your DMA credentials. **The Domain should read DMA.** If it doesn't, type in `DMA\username` in the username login box.

After logging in, you'll go to a page with the Fisher and Spasky icons. Double click on both to connect automatically.
